

GETTING TO THE STATE DEPARTMENT LOCATION

The State Department is located right near the National Mall between 21st and 23rd St. between C and D St., NW in Washington, DC. Foggy Bottom Metro Station is a few blocks north on 23rd St., and a DC taxi stand is located on 22nd St. and C St.. Some metered street parking is nearby but rarely available mid-day, and paid parking garages are available nearby at Columbia Plaza, the Kennedy Center (near the Watergate Building), and at George Washington University (on H St. between 22nd and 23rd.)

ENTERING THE STATE DEPARTMENT BUILDING

We will do everything we can to expedite your visit. In addition to passing your clearances to attend the meeting, *please RSVP* using our form so we can “pre-clear” your entry by giving your name and ID info on a list to the entrance staff. Please have entrance staff call 7-5315 to clear your entry into the building.

IC or White House badge-holders: Those holding blue IC badges may go directly to the reception desk and show a driver’s license, after which they may proceed through the DOS building unescorted using their IC badge. Please RSVP before the meeting so our security officers can verify your access clearances.

USG Employees (with USG Identification): Please make sure to RSVP! You will undergo a security screening at the 21st St. entrance of the State Department. As a USG government badge holder, you should go to the reception desk, tell them you are attending the NPAC TWG meeting, and show your USG-issued (DOD, DHS, DOE, FBI, etc) identification to receive a “no escort required” badge.

Non USG employees not having active military ID or other USG ID: Please make sure to RSVP! You will undergo a security screening at the 21st St. entrance of the State Department.

Please go to the reception desk on the left side of the desk inside the entrance, and show a driver's license to receive an "escort required" badge.

Please plan on arriving at least thirty minutes early because there are lines at the entrance, and also in case some complication occurs with entering the building.
